# ROM ESTIMATE

## Automatic Update of Stock List Price and FSC

### Description:

**Allow the automatic updating of principal Stock List Price (SLP) on the Depot Maintenance Interservice Support Agreement (DMISA) Line Item for the Army, Air Force, and Marines; where the SLP is equal to zero or not a manual entry. This does not automatically update the SLP where the Navy is principal of the DMISA. For all services, allow automatic updating of the DMISA line item when the Federal Supply Code (FSC) changes or the National Stock Number (NSN) was superceded in the Federal Logistics Information System (FLIS). This processing would occur during the weekly FLIS reconciliation in IMACS and will only apply to the current DMISA FY. In addition, the messages that are automatically sent to the users each week would be modified to be more user-friendly.**

### Scope:

**Provides enhanced asset visibility for the users of IMACS by automatically updating the principal SLP for any current DMISA FY and if an NSN is superceded or the FSC changes, automatically update the line items for the current DMISA FY.**

# *ROM ESTIMATE*

| Enhancement | COST |
| --- | --- |
| Automatic Update of Stock List Price and FSC | $ 84K[1] |

[1] Dollars are estimates only – A formal cost proposal will be submitted upon request
